This is just a sample list, in no particular order and we also allow for requests from the audience and also our clients' own choice of music. Towards the end of the night we would usually slow things down with Motown and Soul and then finish with a slow track.

At Weddings, or any function with a mixed aged audience we would usually try and avoid anything too specialised, or Genre's such as Heavy Metal, Rap, Trance or non commercial Dance Music unless **specifically requested by the client** - where they believe that it would be appreciated by their guests. Of course, we do tailor the music to the age range of the audience, and so if you do have an audience consisting of mainly Younger Guests then the playlist will be tailored accordingly, and exactly the same for older age groups as well.
